

Marymoor R/C Club

Basic Flight Training

At Marymoor Park, Starting April 29th

Every Tuesday evening, 5:00 PM until dusk (weather permitting), the R/C field at Marymoor Park will be reserved for flight training.

Experienced instructor pilots will be on hand to help you get your trainer aircraft flight ready and into the air. Our goal is to help you learn the exciting hobby of flying remote controlled model aircraft in a safe and rewarding manner.

All student pilots must have current AMA and MAR/C membership. Visit our website at www.mar-c.org for more information, or contact Jerry Willmon at 425-241-2655
